

# Joe Ward, 23

Full Stack Flutter Developer

R E S U M E

## ABOUT ME

A dedicated Flutter developer and Computer Science graduate with a background in business but the world of mobile development changed my mind, bringing a unique perspective to building efficient, scalable, and user-centric mobile applications; committed to continuous growth, innovative problem-solving, and advancing toward senior mobile development.

## EDUCATION

(2022-2025)

UNIVERSITY OF BALAMAND

Bachelor In Computer Science

## SELF-TEACHING

Flutter Development

## SKILLS

- Flutter Development
- GetX State Management
- Firebase
- MongoDB
- Node JS
- Dart
- RiverPod
- MySql
- Javascript
- Git / Github
- Medium Level Skill In Many Other Frameworks / Tools (Check Personal Portfolio Website For More Info)

## EXPERIENCES

### PERSONAL PROJECTS

#### OTAKU WRDD

An anime and manga tracking app allowing users to search, discover, and manage collections with real-time data from anime/manga-specific APIs. Features intuitive navigation and rich content displays.

**Technologies:** Flutter, Dart, Firebase

**Demo:** youtube.com/watch?v=Kxwv9YltdiU

#### KIRITO FLUTTER

A Web3-themed mobile wallet enabling users to create a portfolio wallet, track live cryptocurrency prices, stay updated with news, and search for cryptocurrencies. Includes a pixelated UI, a PVP XO game with betting functionality, and real-time data fetched from the CoinGeckoNews API.

**Technologies:** Flutter, Dart, CoinGeckoNews API, Web3API

**Demo:** youtube.com/shorts/AlmUSEHINxs

#### JUKYOMALL MS

A modern e-commerce mobile application offering seamless shopping, user authentication, and product management. Users can browse products, add to cart, and place orders. Admin features (coming soon) include product, order, and user management with sales analytics.

**Technologies:** Flutter, Dart, Firebase

**Demo:** youtube.com/shorts/kTMkjgB8FL8

#### WRDDWALLET FLUTTER

A Web3 wallet that allows users to create or import wallets via seed phrase, secured using Moralis API. Features include sections for NFTs, tokens, wallet balance, and transaction history—all within a sleek UI built in Flutter.

**Technologies:** Flutter, Dart, Moralis API, Web3API

**Demo:** youtube.com/shorts/2Aa40WIWTU8

#### HYPERCAR CLUB

A hypercar showcase app where users can explore cars and manufacturers, view detailed car specs (speed, horsepower, price, fuel type), and favorite cars. Includes a real-time chat box and a quiz for hypercar enthusiasts.

**Technologies:** Flutter, Dart, Firebase

**Demo:** youtube.com/shorts/uiFwAOzMZWg

#### AI BUDDY

An AI-powered chatbot using Gemini AI, enabling interactive conversations and summarization of uploaded images and PDFs. Users authenticate with a private Gemini API key for personalized experiences.

**Technologies:** Flutter, Dart, Gemini API, Hive

**Demo:** youtube.com/shorts/IUnKFGLb22E

#### RIWAYA.

A modern coffee shop app with elegant UI, animated transitions, product customization, reward points, and a seamless ordering and checkout process—all designed for a premium user experience.

**Technologies:** Flutter, Dart, Firebase

**Demo:** youtube.com/shorts/jx3vP4s0-Ew
